Good day

I am very pleased to announce a new treatment that I would be offering.

### IV Vitamin Drips

We are finding ourselves in the middle of a pandemic and so many lives of loved ones and friends were affected by this. Since there is no definitive treatment for viruses, keeping up a good immune system is of key importance.

I am very excited about Intravenous Therapy.

#### What is a Vitamin Drip?

The long history of safety and efficacy, the Intravenous (IV) Vitamin Drip delivers vitamins, minerals and amino acids directly to the body for maximum absorption. Through this process, the nutrients are delivered through your body enabling it to nourish itself at a cellular level.

The benefits are endless and differ depending on which cocktail you choose but most experience an increase in energy, improvement in sleep, improvement in mood, hydration, assisting reducing stress and anxiety, improved skin and increase of immunity.

The aim of IV drips is to provide a range of Vitamins to aid health, wellness, and lifestyle. Specific cocktail drips are created to address different concern.

The IV therapy is safe, reliable and effective for anyone over the age of 13 years and the best part...it only takes 30 mins.

#### IV drip Menu

- **Super Immune Booster Drip**
  - Supercharge your immune system to fight off illness. Our Super Immune Booster is packed with a blend of IV Fluids, Vitamin C, Magnesium, Zinc and antioxidants that assist with energy, cleansing your body and recharging your immune system.

R850

- **Post Covid Recovery Drip**

R850

We are seeing more and more people experiencing debilitation fatigue, ongoing headaches, body aches and a delayed response to overall recovery. Many are dealing with these post-syndrome issues after overcoming COVID-19 diagnosis.

We combined Super Immune Boosting IV Drips with Vitamin D to help improve sleep, increase energy levels and assist you with fighting post symptoms. Speed up your recovery and give your immune response a boost with hydration and essential nutrients.

Disclaimer: While IV Therapy cannot prevent you from contracting the virus. It can aid your body's immune system to fight it.

- **Hair and Nail Drip**

R500

- You may have observed an increase in hair loss and shedding, and/or frequent nail splitting and breakages. These changes occur because the body's integumentary system (skin, hair, and nails) is directly influenced by changes that take place within the body, as well as by those that take place in our external environment.

Taking cues from the fact that our hair and nails can indicate that the body is not performing optimally, we have formulated our own Hair and Nails IV infusion to replenish your body with the essential vitamins and minerals it may lack.

- **Energy booster Drip**

R550

- **Burn out Booster**

R750

- **Anti-Aging**

R600
